

# **SYSTEM FOR INTERACTING WITH PARTICIPANTS AT A WEB SITE THROUGH AN INTERACTIVE VISUAL PROXY**

## **ABSTRACT**

A computer graphical user interface (GUI) that has two or more visual categories. Each of the  
5 visual categories is divided into visual subcategories of ordered levels of specificity. Each of the  
ordered levels of specificity is grouped into visual districts containing visual subcategories of the  
same levels of specificity.

FOR OFFICIAL USE ONLY
